Question or Comment	<p>It is with great disappointment that I write a comment to you, the SLO Planning Commission. I cannot imagine how after the entire community of the central coast has spoken against this issue, you decided to move forward with allowing oil delivery by trains. You have no business holding this office if you did not hear the loud and clear voice of your constituents. Either you have no true allegiance to this region or you have hidden financial gains to let this project move forward. The three elderly men who voted for this clearly are out of touch with modern thinking. In this century we care about the environment, and we care about our childrens health. I hope the Board of Supervisors has more sense than you.</p>
